ZENITH FIT

THE SUNDAY SESSION WORKSHEET

THE PORTION AUDIT

Knowing what's actually on your plate

NAME

WEEK STARTING

It doesn't matter whether you use photos, Smart Plate or a tracking app. All 3 work. What matters is knowing what's actually going in. This audit takes 3 days, and at least 1 of them has to be a weekend day.

MY METHOD

- [ ] Photo journal
- [ ] Smart Plate
- [ ] Tracking app

WEIGH IT ONCE

Pick the 3 foods you eat most. Serve your usual portion, then weigh it or check it against the pack. Just once.

Food	What I thought I had	What I actually had	A proper portion

ZENITH FIT

WHERE IT HIDES

The little bits that never feel like eating

Every time something doesn't make it into your photos, your plate or your app, write it down. No judgement, we're just getting honest.

the oil in the pan | milk in coffees | picking while cooking | the kids' leftovers | a handful of something | the biscuit with the brew

DAY 1 _____

☐ Weekend day

WHAT DIDN'T GET RECORDED

Which of these surprised me most? _____

DAY 2 _____

☐ Weekend day

WHAT DIDN'T GET RECORDED

Which of these surprised me most? _____

DAY 3 _____

☐ Weekend day

WHAT DIDN'T GET RECORDED

Which of these surprised me most? _____

ZENITH FIT

WHAT I NOTICED

Now we do something about it

1 **What was my biggest surprise from weighing my portions?**

2 **Where do my calories hide most: the weekdays, the evenings or the weekend?**

3 **Which of my "healthy" foods do I need to keep a closer eye on?**

MY ONE THING

Pick one thing to tighten up next week. Just one.

REMINDERS

Photo journal: every bite gets a photo, the picky bits included
Smart Plate: half veg, a palm of protein, a fist of carbs, a thumb of fats
Tracking app: log the oil and the drinks, pre log the night before
Saturday gets treated exactly like Monday

This isn't about eating less food. Protein first, veg up, and know what's on your plate.
