

Your Zenith Fit Coaching Pathway

A structured journey designed to meet you where you are and guide you to where you want to be. Start with Accelerator, progress into Momentum or Transformation, and build the lifestyle that lasts.

STEP 1

Zenith Accelerator

6 Weeks to Build Momentum Fast

Purpose: Build momentum fast and set foundations that actually stick. No overwhelm—just clarity, structure, and results you can feel.

How it starts: Onboarding in Everfit, baseline check-in (photos, weight, measurements), lifestyle audit, and your simple weekly targets—training, steps, nutrition structure.

Weekly rhythm: 3–4 workouts, daily movement target, simple nutrition strategy (protein focus, consistency, weekend plan), weekly check-ins with feedback and adjustments, plus education inside Zenith Academy.
