ZENITH FIT GUIDE

THE CHRISTMAS PARTY PLAYBOOK

Go out, have a proper night, and wake up still on track.

Save this to your phone. Read it before you head out.

THE DAY OF

Treat the day like any other day. Honestly, that’s half the battle.

Protein at every meal.

Get your steps in early, before the day runs away from you.

Have a proper meal before you go out.

Please don’t skip meals to save calories for the night. I see it every single year. You turn up starving, 2 drinks in, and suddenly the buffet’s looking very good.

Going out fed is the best thing you can do for yourself.

THE DRINKS

Decide your number before you leave the house. It's a lot easier to stick to a number you picked sober.

Have a glass of water between every drink. You'll thank me in the morning.

Simple swaps: a spirit with a diet mixer, a small glass of wine instead of a large, or a light beer.

Cocktails and creamy liqueurs are the big ones, so pick your favourite and have one.

WHEN SOMEONE SAYS "GO ON, JUST ONE MORE"

"I'm good thanks, I've got plans in the morning."

Nobody's checking. Most people won't even notice.

THE BUFFET

One plate. Fill it, then walk away from the table.

Protein first. Chicken, prawns, the meats, the eggs.

Then whatever you actually fancy.

Stand somewhere you can’t see the food.

Pick the one thing you’ll really enjoy and have it properly. A mince pie you actually wanted beats 6 sausage rolls you didn’t even taste.

THE MORNING AFTER

Don’t panic. One night out doesn’t undo weeks of work.

1. A big glass of water as soon as you’re up.
2. A protein breakfast. Eggs on toast is perfect.
3. Get out for a walk, even if it’s 20 minutes round the block.
4. Log the night honestly. All of it.

No skipping meals to make up for it. No punishing yourself in the gym.

Never miss twice. The next meal goes back on plan, and we carry on.
