ZENITH FIT

THE SMART PLATE

Build every meal with your hand. No apps, no scales, works anywhere.

Your hand is your measuring tool. It's always with you, it scales to your size, and it works at home, in restaurants and on holiday.

PROTEIN

1 to 2 palms per meal

Chicken, turkey, lean beef, fish, prawns, eggs, Greek yoghurt, cottage cheese, tofu, lentils. **Keeps you full and protects muscle.**

VEG OR FRUIT

1 to 2 fists

Salad, mixed veg, peppers, broccoli, spinach, berries, apples. **Volume and fibre for better appetite control.**

CARBS

1 cupped hand

Rice, pasta, potatoes, oats, wraps, bread, beans. **Training days 1 to 2 hands, rest days 0 to 1.**

FATS

1 thumb

Olive oil, butter, cheese, nuts, avocado, pesto, mayo. Healthy but calorie dense. **This is where most people overdo it without realising.**

HOW TO USE IT

1

Build your plate protein first, every time.

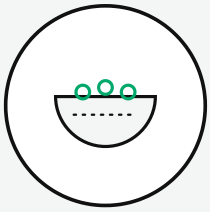

2

Eat slowly and stop when you're satisfied, not stuffed.

3

Repeat it. Boring and consistent beats perfect.

REAL LIFE EXAMPLES

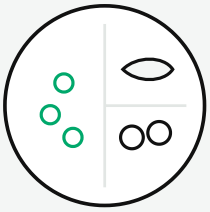

BREAKFAST

Greek yoghurt, berries, a small handful of oats.

LUNCH

Chicken wrap with salad and a thumb of mayo.

DINNER

Salmon, potatoes and roasted veg with a drizzle of olive oil.

PROTEIN SNACK IDEAS

- Greek yoghurt and berries
- Protein shake and a banana
- Cottage cheese and fruit
- 2 boiled eggs and an apple

Maintenance or a bit more fuel? Go up to 2 cupped hands of carbs and 2 thumbs of fats per meal. Protein stays the same.
