

THE 2,000 CALORIE GUIDE

2,000 CALORIES. DONE SIMPLY.

3 example days at around 2,000 calories, built on real food you'll actually eat. **Protein at every meal, a bonus every day, and nothing complicated.**

Mark Davies
Founder, Zenith Fit

Structure beats motivation. Every single time.

HOW TO USE THIS

WHAT A 2,000 CALORIE DAY LOOKS LIKE

These are **3 example days at around 2,000 calories.** They show you what a day can look like at your number. Use them as a starting point and make them yours.

1. **Pre log it the night before.**
   Put tomorrow's food in the app before bed. Your app does the exact maths, and you wake up with the day already decided.
2. **Swap freely.**
   Chicken for turkey, rice for potatoes, one yoghurt for another. Keep protein at every meal and you'll stay close to your number.
3. **Repeat what works.**
   Most people do best with the same breakfast most days and 2 or 3 lunches on rotation.
4. **The bonus is part of the plan.**
   It's there on purpose. Have it, enjoy it, and move on.

PROTEIN AT EVERY MEAL. PRE LOG THE NIGHT BEFORE.

Do those 2 things and the numbers look after themselves. **Not sure what your number should be?** Ask me in your check in and I'll set it with you.

EXAMPLE DAY 1

DAY 1

BREAKFAST

- 60g porridge oats
- 25g whey protein
- 100g frozen berries

MID MORNING SNACK

- 1 x caramel rice cake
- 20g nut butter
